**CIRRASCALE® ATTRACTS NEW SENIOR VICE PRESIDENT TO LEAD GROWTH;
EXPANDS CHANNEL MARKET PENETRATION**

25 year technology veteran, Chris J. Piecukonis, joins Cirrascale to lead global sales organization and taps sales executive Steve Tarantino to expand its growing channel opportunities

San Diego, Calif. -- October 29, 2013 -- Cirrascale Corporation®, a premier developer of build-to-order, independent blade-based computing and storage infrastructure for conventional and modular data centers, today announced the appointment of Chris J. Piecukonis as the company's senior vice president of sales and marketing. Piecukonis will be responsible for driving the global sales organization while overseeing the company's growing channel market strategy. Additionally, the company announced that Steve Tarantino has been appointed its vice president of strategic and channel sales. Tarantino will focus on accelerating Cirrascale's current channel programs while managing its strategic accounts in the United States.

"We are excited to add a valued, experienced leader such as Chris to our organization that has proven throughout his career the ability to drive sales and increase overall market penetration," said David Driggers, CEO, Cirrascale Corporation. "Chris is an ideal fit for Cirrascale as we continue to advance our initiatives of finding clients who desire a true solution-driven engineering company. Our mission to help design, build, deploy and support custom-tailored solutions for our customers is now stronger than ever before."

Piecukonis has extensive history as a technology executive with over 25 years of experience in sales and services management. Recently employed by a multi-billion dollar Value Added Reseller, Piecukonis possesses the ability to further expand Cirrascale's already growing sales organization and help fully achieve the company's extraordinary potential.

About Cirrascale Corporation

Cirrascale Corporation is a premier provider of blade-based cloud computing and storage infrastructure for conventional and modular data centers. Cirrascale leverages its patented Vertical Cooling Technology™ to provide the industry's most energy-efficient standards-based platforms with the lowest possible total cost of ownership in the densest form factor. Cirrascale sells to large-scale infrastructure operators, hosting and managed services providers, Cloud Service Providers, and HPC users. Cirrascale also licenses its award winning technology to partners globally. To learn more about Cirrascale and its unique data center infrastructure solutions, please visit <http://www.cirrascale.com> or call (888) 942-3800.
